Date : June 20, 2021

Time : 01 : 00 PM EST

Duration : 60 Minutes

Price: \$149

Webinar Description

Your company must be PCI compliant if it receives payments in the form of credit cards, checks and wires? As our technology base in the world has improved and made our lives easier, so has the threat of having our identities stolen. Each year we hear of several companies that have experienced data breaches and the major negative impact it has on all consumers. Data breaches are not only detrimental to consumers but should your company experience a data breach, expect the cost to be roughly \$3.8M. With all that being said, you must understand what your company needs to do to get PCI compliant..

Who Should Attend ?

- *Director of Credit*
- *Credit Managers*
- *All Credit department employees*
- *VP of finance*
- *Controllers*
- *Owners of small businesses*
- *Any business that takes credit cards*
