# Webinar Description

Many companies have challenges keep track and keeping up with all the workplace laws and regulations that impact companies with more than 20 employees when they are in one state. Think of the challenges when the company has locations in multiple states and even across International locations. Companies are at risk for several workplace laws that can impact many parts of an organization. From staffing, hiring, compensation, background screening, employee leave management, performance, social media, public sector, termination, and discrimination are just some of the areas that will impact the risk management in companies and companies should take this seriously.

Vacation restrictions

Management decisions risk for “Vicarious Liability”

Termination and deducting from the last paycheck

As you can see, the list above is not exhaustive. In fact, it does not include all the workplace regulations that are indicated in some of the states. Although the list is daunting, there is light at the end of the tunnel.

# Who Should Attend ?

*As a compliance officer for organizations, I was able to provide resources for the organizations that helped them navigate the numerous workplace compliance challenges. The goal is not to train you to be an expert in each of these areas, but to be aware enough to mitigate compliance concerns and make you a champion in your organization. This seminar will help you identify the many workplace regulations that impact not only state-specific organizations but, it will help to identify the numerous regulations for multi-state organizations.*
