Duration : 60 Minutes

Price: \$150

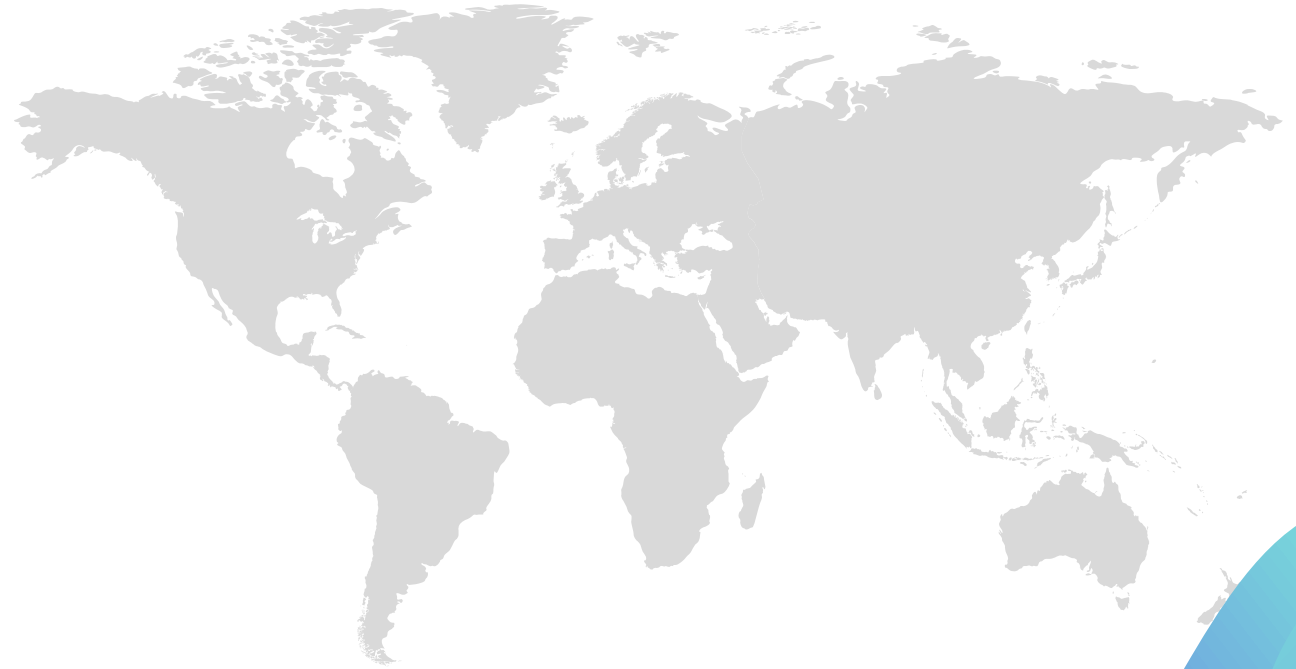

Webinar Description

Based on my 47 years experience, I will share the top 10 items that most employers overlook in their safety program that could lead to an expensive citation from OSHA. Also, guidelines to follow that will assist with compliance with the least amount of frustration.

Who Should Attend ?

A safety program is a requirement for all employers. Even if you have less than 10 employees. Employers still have safety requirements to meet with OSHA. Most employers are very confused and don't have the resources to figure out what regulations apply to them.
