

Webinar on

Set Of 2 Informative Webinars On CMS Discharge Planning

Webinar Description

The webinar format is 1-1.5 hours of audio-visual presentation, including a brief Q&A session.

This webinar bundle includes below 2 Recorded/Best Seller webinars:

The CMS Conditions of Participation for Discharge Planning: What's New for 2020

The CMS Discharge Planning Rules and Regulations for 2018

The CMS Conditions of Participation for Discharge Planning: What's New for 2020

Presented by Toni G. Cesta

This program will review the current rules and regulations from the Conditions of Participation (CoP) for Discharge Planning. The CoP is the legal and regulatory requirements that hospitals and case management professionals must follow in order to be compliant in their role as discharge planners. This will be followed by a review of the changes to the Conditions of Participation for Discharge Planning that were announced in October 2019 for Federal Fiscal Year 2020. From here we will then discuss these most recent changes from the Medicare program and how they will impact the roles of the RN case manager and the social worker. Learn how to be sure that your processes address the complexities of the new healthcare environment and that your role as a case manager or social worker is designed and staffed to meet the changes ahead!

The CMS Discharge Planning Rules and Regulations for 2018

Presented by Toni G. Cesta

This program will review the current rules and regulations from the Conditions of Participation for discharge planning. We will then discuss the most recent changes to the Medicare program and how they will impact the roles of the RN case manager and the social worker. We will review strategies for safely transitioning your patients across the continuum of care. In addition, we will review how to engage other members of the interdisciplinary care team in the process of planning for the patient's movement across the continuum including verbal and written hand-off communication. We will also discuss the positive impact that effective discharge planning processes can have on hospitals, post-acute providers and patients!
