# How to Become an Influential & Empowered Leader – With or Without a Title

Presented by Maura Sweeney

With shifting corporate cultures requiring change management expertise, this webinar focuses on the mindsets, practices and emotional intelligence of the leader or aspiring leader. Discover not only how to facilitate and empower positive change, but how to start by becoming the “changed one” yourself.

Stringent notions of management and top-down pyramid corporate structures are constantly being challenged. Doing business in 21st-century digital market shifts daily, compounded by a workforce progressively younger and more “Millennial” in its mindset. While companies are doing a good job of developing new missions and creating value statements that reflect a more inclusive and empowering leadership approach, they are falling short on making the leap from proclamation to practice. This workshop does more than focus on a new way of thinking about leadership and the building of a strong and responsive team; it provides helpful tips, real-life examples and challenging, reflective questions for the seasoned as well as an aspiring leader to turn ideas to reality and form into substance.
