# Excel Savvy: Pivot Tables Part 1

Presented by David H. Ringstrom

After participating in this empowering webcast presented by Excel expert David Ringstrom, CPA, you'll know how to transform data into a pivot table-ready format and instantly create reports by simply dragging and dropping fields with your mouse. David demonstrates how to initiate a pivot table from a list of data, expand and collapse pivot table elements, dig deeper into the numbers, and more. In addition, he points out pivot tables traps and shares tricks to help ensure your reports are accurate. David demonstrates every technique at least twice: first, on a PowerPoint slide with numbered steps, and second, in Excel 2016. He draws your attention to any differences in Excel 2013, 2010, or 2007 during the presentation as well as in his detailed handouts. David also provides an Excel workbook that includes most of the examples he uses during the webcast.
