Time : 01 : 00 PM EST

Duration : 60 Minutes

Price: $179

Webinar Description

ANSI/AAMI/IEC 62366 is a Recognized Consensus Standard by the US FDA and a harmonized standard in the EU. This means that compliance to it provides a presumption of conformity to the requirements within those jurisdictions. Compliance with the standard helps both ensure a smooth path to market clearance and drives a safer product.

Who Should Attend ?

This webinar is intended for usability/human factors engineers, quality personnel, and project managers who manage projects with a user interface

Why Should You Attend ?

A practical application of the standard is not always intuitive. There are some nuances that can lead to unnecessary and excessive work. This training session will discuss techniques and methods that have proven successful in better ensuring safe and effective products and compliant regulatory submissions.
