

Webinar on

Strategic Workforce Planning: Practical Tools And Guidelines

Date : 21 March 2019

Learning Objectives

- Recognize the difference between operational and Strategic Workforce Planning*
- Define the steps in the Strategic Workforce Planning process*
- Segment roles (not people) in their ability to implement the strategy*
- Propose different future scenarios for the organization to consider*
- Use the 6B framework for building organizational capability*

Strategic Workforce Planning (SWP) is a discipline that enables organizations to prepare for different futures, see around corners and mitigate risk.

PRESENTED BY:

David C Forman is a widely published author, and former Chief Learning Officer of The Human Capital Institute. The courses he has developed and taught for HCI have been taken by over 25,000 business professionals all over the world. David has worked with many global organizations to improve the knowledge, skills, and performance of their people.

Date : 21 March 2019

Time : 01 : 00 PM EST

Duration : 60 Minutes

Price: \$149

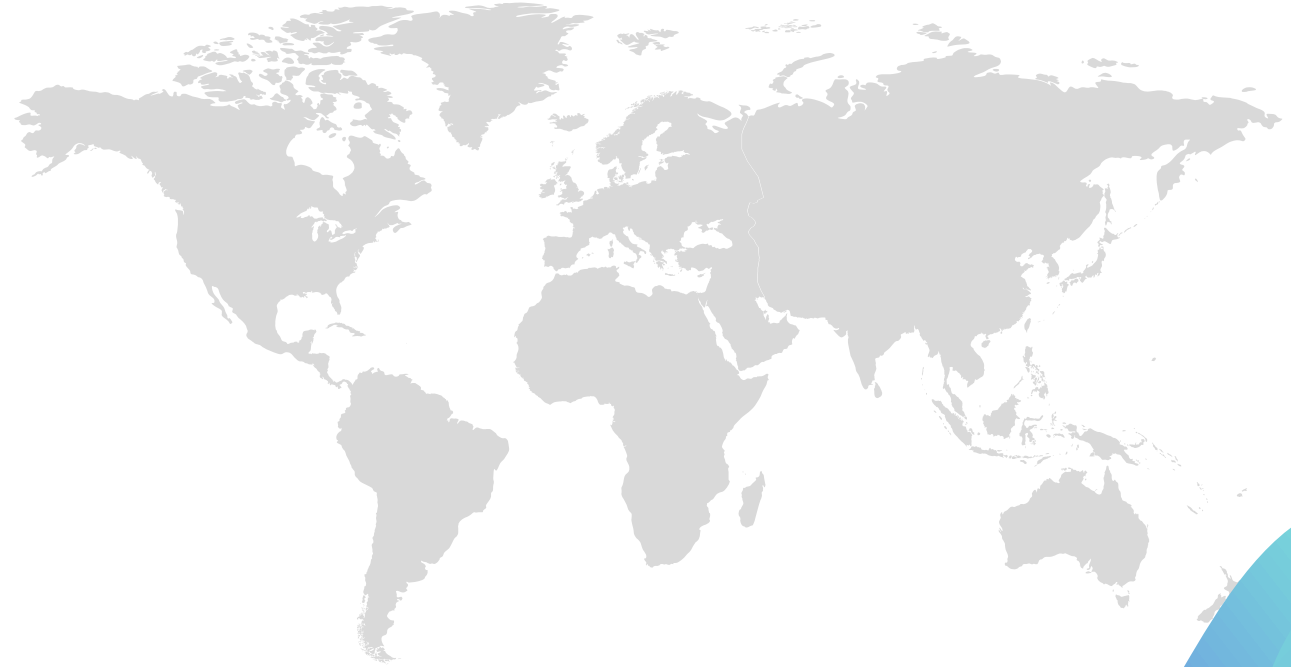

Webinar Description

Businesses are buffeted by turbulence and change on a continuing basis. There are numerous examples of companies and entire industries that have not been prepared for shifts in the economy, technology, competitors and other external factors; and, in some cases, their very existence was threatened. Strategic Workforce Planning (SWP) is a discipline that enables organizations to prepare for different futures, see around corners and mitigate risk. It is a mission-critical function and a great opportunity to contribute to a strategic level.

Who Should Attend ?

Business leaders who want to use data to gain insights on how to improve their organizations. HR leaders who want to become more data-driven and enhance their organization's business performance. Entrepreneurs who want to maximize success and mitigate workforce risk.
