On-Demand Webinar

Duration : 60 Minutes

Price: \$200

# Webinar Description

The Going from being a doer to one who manages others doing can be a daunting challenge. This webinar gives new managers tools to help them succeed in their new role.

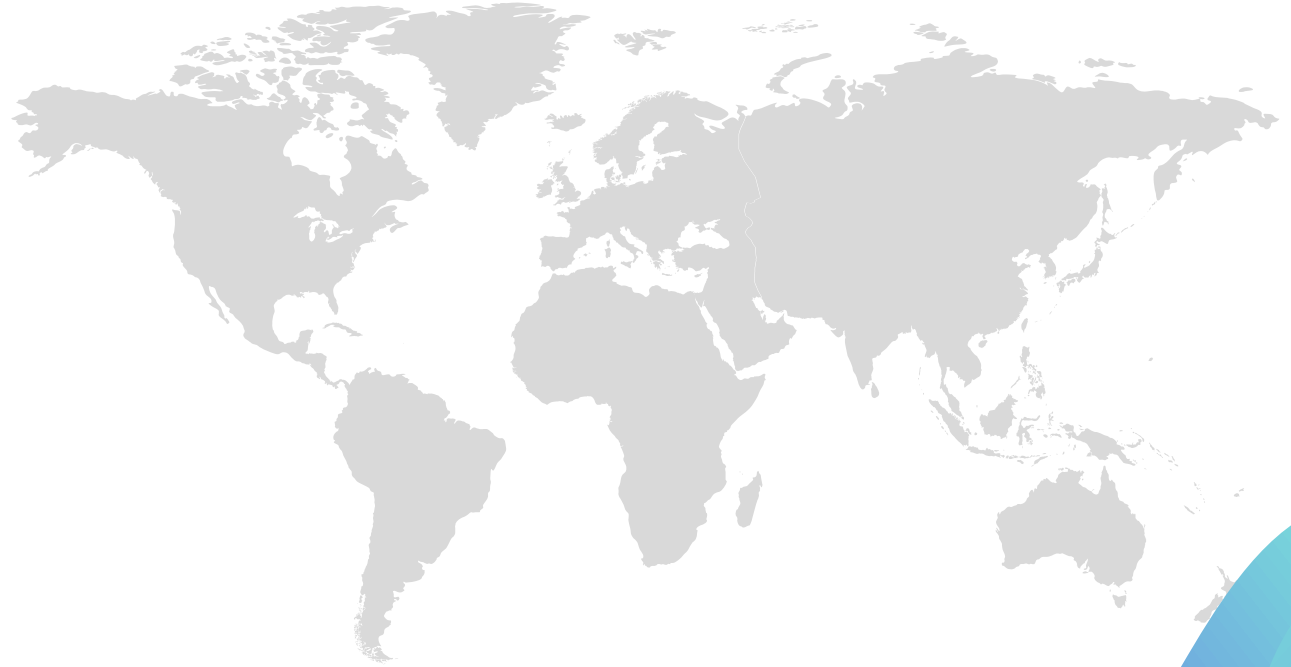

In this 60 minute webinar, Larry will provide you answers to some of the common problems new managers face like:

- Understanding the psychological challenges of making the leap to a managerial/supervisory role
- Avoiding five big mistakes every new manager makes
- Managing friends...and other dangerous activities
- Establishing your authority and understanding its limits and its applications
- Learning to balance letting go with staying in control
- Accepting that you can't be everyone's buddy

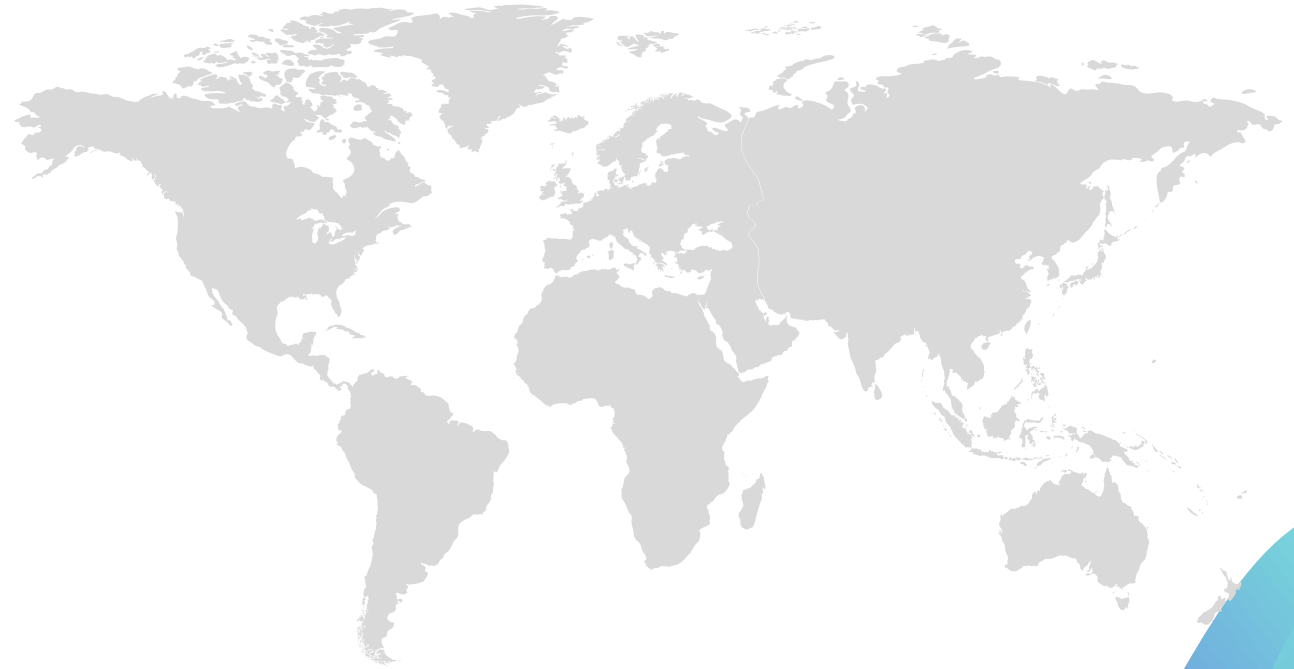

# Who Should Attend ?

*New managers and those who wish to have a review*

# Why Should You Attend ?

*If you are feeling unsure of your ability to manage others effectively, this webinar is for you. If you are an experienced manager who would like to have a refresher course on the basics, this webinar is for you. And, if you're not managing yet, but plan to make the leap in the future, this webinar is for you too.*
