**PRESENTED BY:**

*Danielle DeLucy, MS, is the owner of ASA Training and Consulting, LLC which provides Pharmaceutical and Biologics based companies with training and quality systems assistance in order to meet regulatory compliance.*

On-demand Webinar

Duration : 60 Minutes

Price: \$200

# Webinar Description

Deviation investigations are a very common topic to be reviewed during FDA investigations. Ensuring the firm has robust and complete write-ups of these situations is key to a successful audit. Having inadequate investigations could potentially cause some severe issues for the company and may sometimes result in warning letters, consent decrees or recalls.

# Who Should Attend ?

*Site Quality Operations Managers*

*Quality Assurance personnel*

*Plant Managers and Supervisors*

*Manufacturing Superintendents and Managers*

*Regulatory Affairs Managers*

*QC Lab staff*

# Why Should Attend ?

*This webinar will help attendees understand the fundamental steps of a deviation investigation with a focus on using facts and objective evidence to arrive at root cause and CAPA. This webinar will focus on how to avoid the pitfalls that may occur during FDA inspections and help eliminate 483 observations. Learn how to identify and avoid potential pitfalls during deviation investigations.*
