He is a Senior Consultant with Mobius Executive Leadership.*

On-Demand Webinar

Duration : 60 Minutes

Price: \$200

# Webinar Description

Decision-making is a critical business skill that requires knowledge of cognitive neuroscience, behavioral economics, decision theory, and host of other disciplines. Most business people are never trained in the decision-making process. In this webinar, you will be introduced to advanced concepts of decision-making and learn some fundamental skills to help you lead your groups and organizations through a sound decision-making process.

Good decision making in organizations requires a mind set, knowledge base, and skill set that is not formally taught in most undergraduate or graduate business schools. Developing power decision-making skills takes time and practice. This webinar introduces advanced knowledge and skills in decision making to permit further personal leadership development.

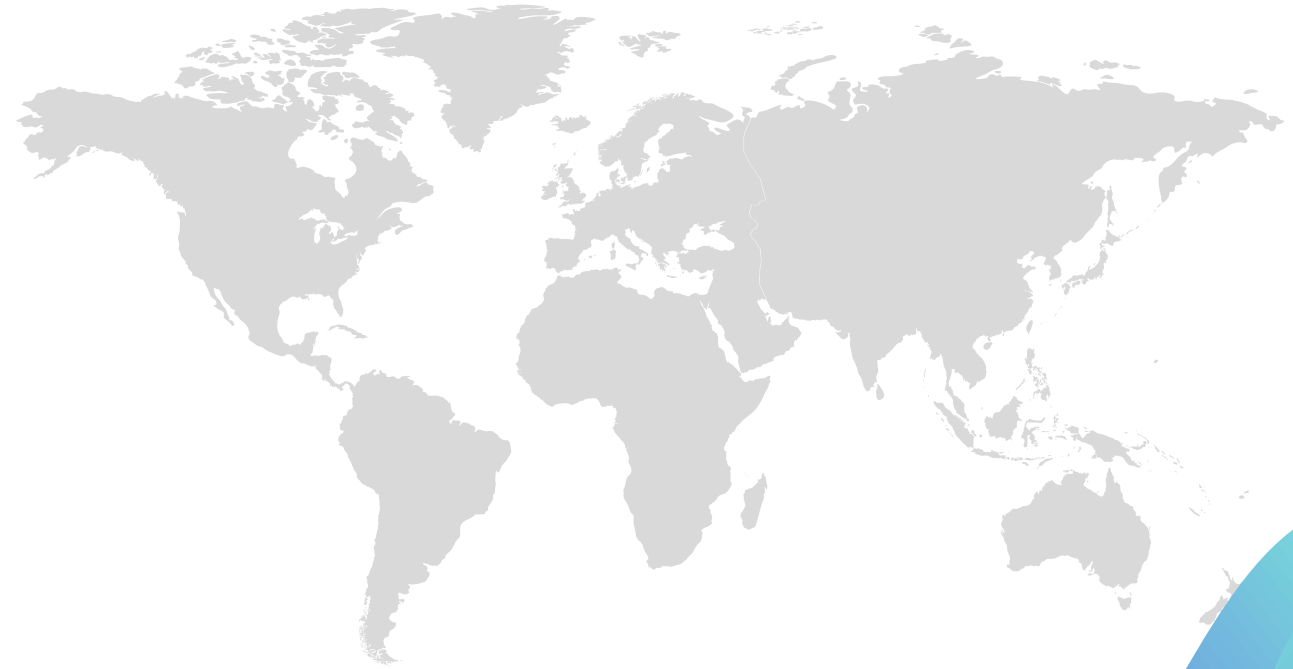

# Who Should Attend ?

*Executives and professionals*

*HR professionals*

*Business coaches*

*Business consultants*
