On-Demand Webinar

Duration : 60 Minutes

Price: \$200

Webinar Description

Suppliers and CMO's must be selected following a rigorous formalized procedure. This webinar will describe a compliant program based on regulatory requirements. Phases of supplier and CMO selection from initial telephone inquiry to the quality survey to qualification audit will be explained. The qualification audit will be described with key points to evaluate explained. How to deal with uncooperative suppliers will be explained.

Who Should Attend ?

Engineering personnel

QA personnel

Software developers

Project managers

Regulatory affairs professionals

Global contract manufacturing transfer teams

Why Should Attend ?

Regulatory agencies require that companies carefully select suppliers and contract manufacturers. The responsibility for product quality and safety remains with the company. It cannot be delegated to the supplier or CMO. Suppliers and CMO's must be selected following a rigorous formalized procedure. This webinar will describe a compliant program based on regulatory requirements and the author's personal experience in qualifying over 40 suppliers and CMO's in the medical device industry.
