On-Demand Webinar

Duration : 60 Minutes

Price: \$200

# Webinar Description

This training program will discuss why an effective export control program (ECP) consists of many processes that connect, intersect and overlap. It is vital that employees responsible for export compliance know the requirements of Title 15, CFR, Part 30 and the responsibilities of U.S. parties at the time of export.

# Who Should Attend ?

*The US and Global Trade Compliance Professionals*

*US Export Professionals*

*Supply Chain Professionals*

*Freight Forwarders, Exporting Carriers*

*Global Logistics Professionals, Consolidators*

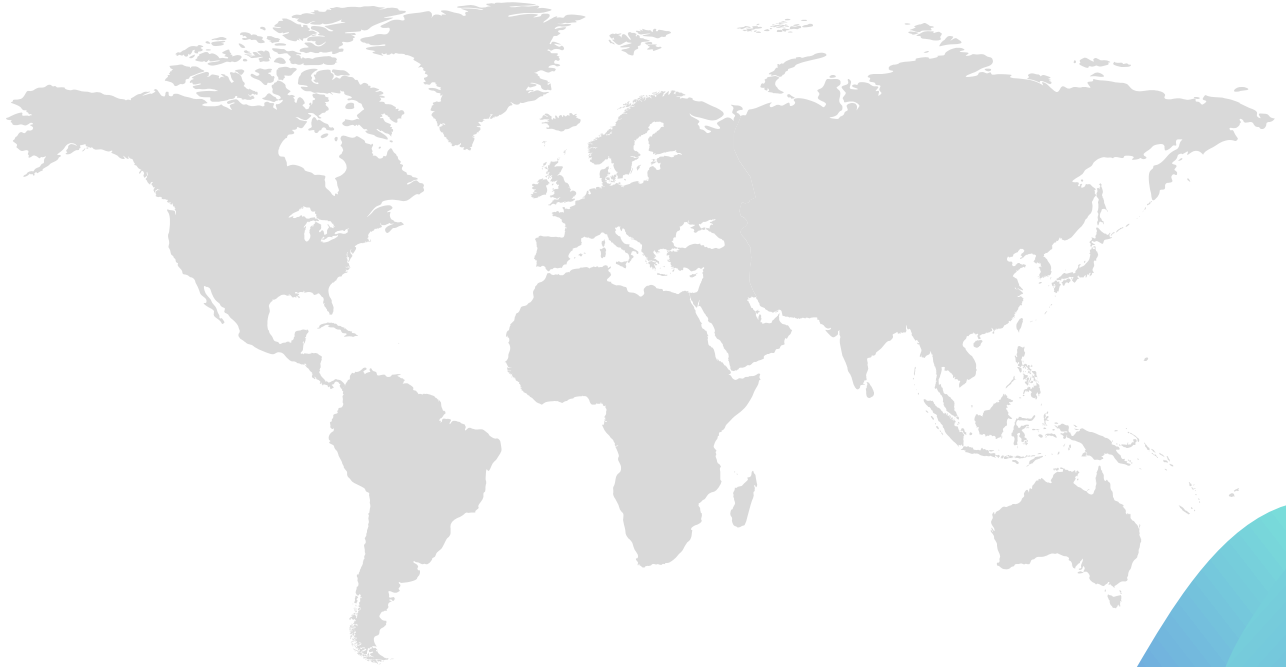

*Manufacturers, Suppliers*

# Why Should Attend ?

*A fundamental cause for non-compliance is a lack of understanding of the FTR, export party responsibilities and the AES process. It is imperative that U.S. exporters, freight forwarders and carriers understand their legal requirements when conducting U.S. export; both standard and routed transactions. With the level of complexity surrounding today's export regulations and requirements, it is vital that employees responsible for export compliance know the requirements of Title 15, CFR, and Part-30.*

*This webcast will focus on the responsibility of U.S. parties – USPPI, FPPI, forwarders, and carriers when conducting standard and routed export transactions.*
