Webinar on

Understanding International ACH

Learning Objectives

This webinar will explain the concept of International ACH, how it works, rationale for choosing it and how it differs from US domestic ACH. It will also discuss what the International Payments Framework Association (IPFA) is and how it addresses International ACH issues. Instructor will cover customer benefits and value proposition regarding International ACH and why it may be preferred over wire transfers.

This webinar will explain what International ACH is, how it works and more about an organization that is creating global standards to make it even easier.

PRESENTED BY:

Jane Hennessy is Head of External Alliances at G2 Web Services, headquartered in Bellevue, Washington. G2 Web Services is a technology and services company that helps banks, processors and their partners ensure safer and more profitable commerce.
