**PRESENTED BY:**

*Steven St. Laurent has grown his safety company, StevenStLaurent.com, Inc., by providing dynamic training that doesn't bore you to death compelling his audience to put safety into practice in their professional and personal lives. He is known as the "Spanish OSHA Guy" and conducts all his training in Spanish as well as English thanks to having lived and worked 2 years in Mexico! He maintains a free safety blog focusing on how to be a better trainer as well as providing content for toolbox safety talks.*

On-Demand Webinar

Duration : 90 Minutes

Price: \$200

# Webinar Description

Do your Toolbox Safety Talks engage your audience, provoke great discussion all while compelling people to take action on safety and health in their personal and professional lives? The soft-skills or people skills of presenting, public speaking and a powerful delivery have fallen by the wayside. This Webinar resurrects these skills in a fun and easy-to-apply manner

If you find it difficult to lead a meaningful safety meeting, then this talk is for you! Too often I've heard people tell me that they've never gotten any guidance on how to prepare, find good content, and take a list of steps, a statistic or procedure and turn it into an engaging talk. And sadly, in some cases, the Toolbox Talk or Safety Huddle devolves to just passing around a piece of paper and saying, "This is the talk for the week. Sign it." AHHHHHHHHHH. This can't be! And it won't be any more after attending this relevant webinar that will give you practical tips for immediate use!

# Who Should Attend ?

*All people who conduct training or safety meetings*

*Owners*

*Plant Managers, Department heads*

*Supervisors, General managers*

*Safety and H.R. Professionals*

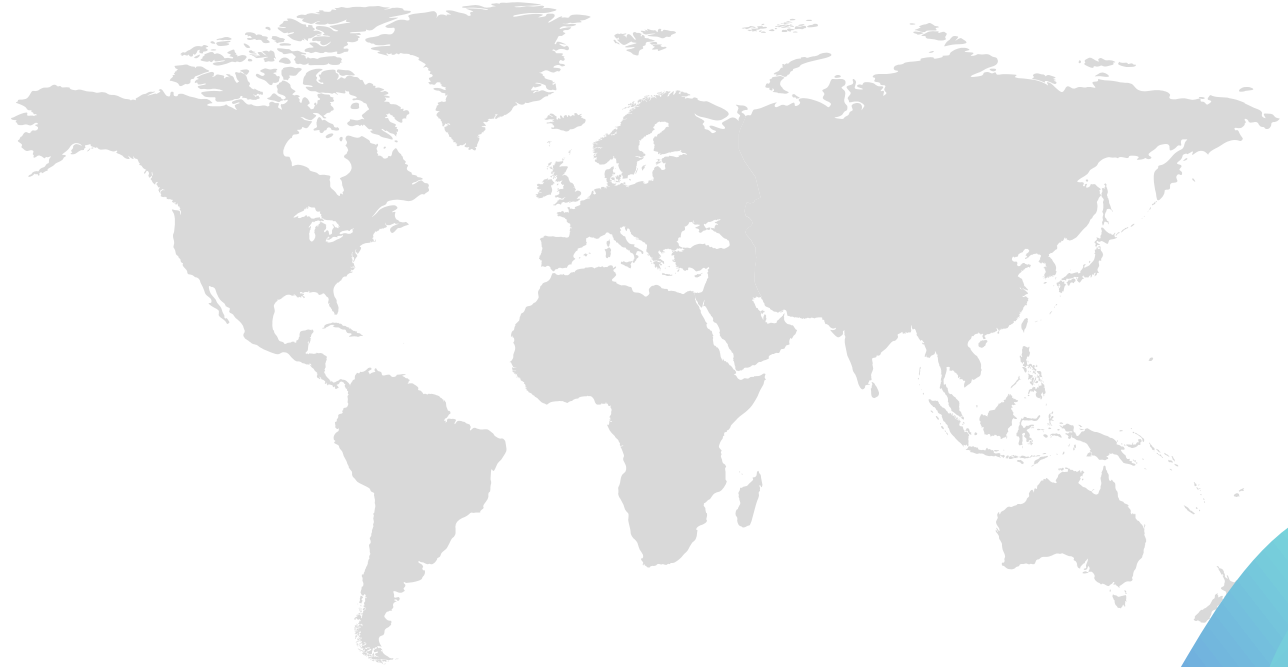

*Safety managers, Safety committee members*

*Internal auditors, Risk managers*

*Compliance officers*

*HR professionals, Facility managers*

*Chief engineers*
