Artificial
Intelligence is
changing
many
markets,
including the
legal market.
Find out what
is happening
in this.

PRESENTED BY:

Mark Henriques has litigated contract cases for 27 years and brings a practical, litigation-oriented approach to drafting and negotiating contracts. Mark is a partner with Womble Bond Dickinson, a transatlantic firm with over 1000 attorneys, where he has practiced since 1991.

On-Demand Webinar

Duration : 60 Minutes

Price: \$200

Webinar Description

In this practical webinar, you will learn about the latest developments in Artificial Intelligence and get a glimpse into the future, as additional legal tasks get automated.

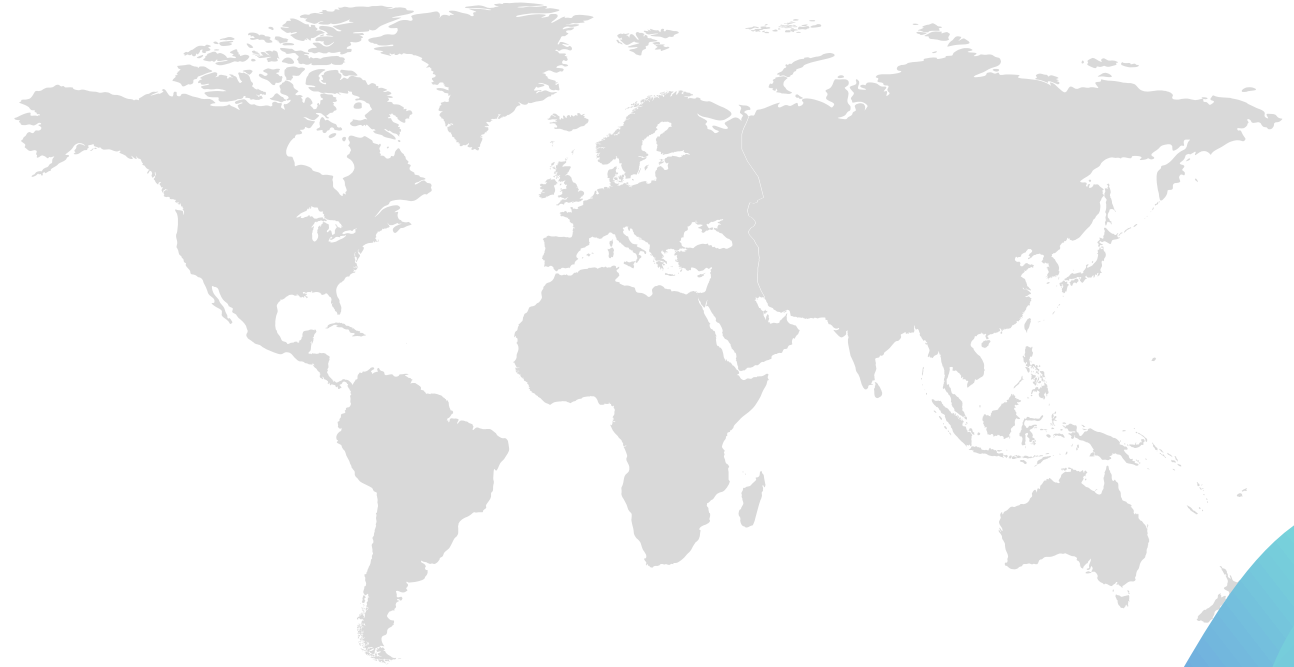

Upon course completion, you will be able to:

- Define “machine learning”
- Describe how machine learning is already being used by law firms
- Evaluate how Artificial Intelligence is changing legal jobs
- Consider the ethical implications of Artificial Intelligence decision-making models

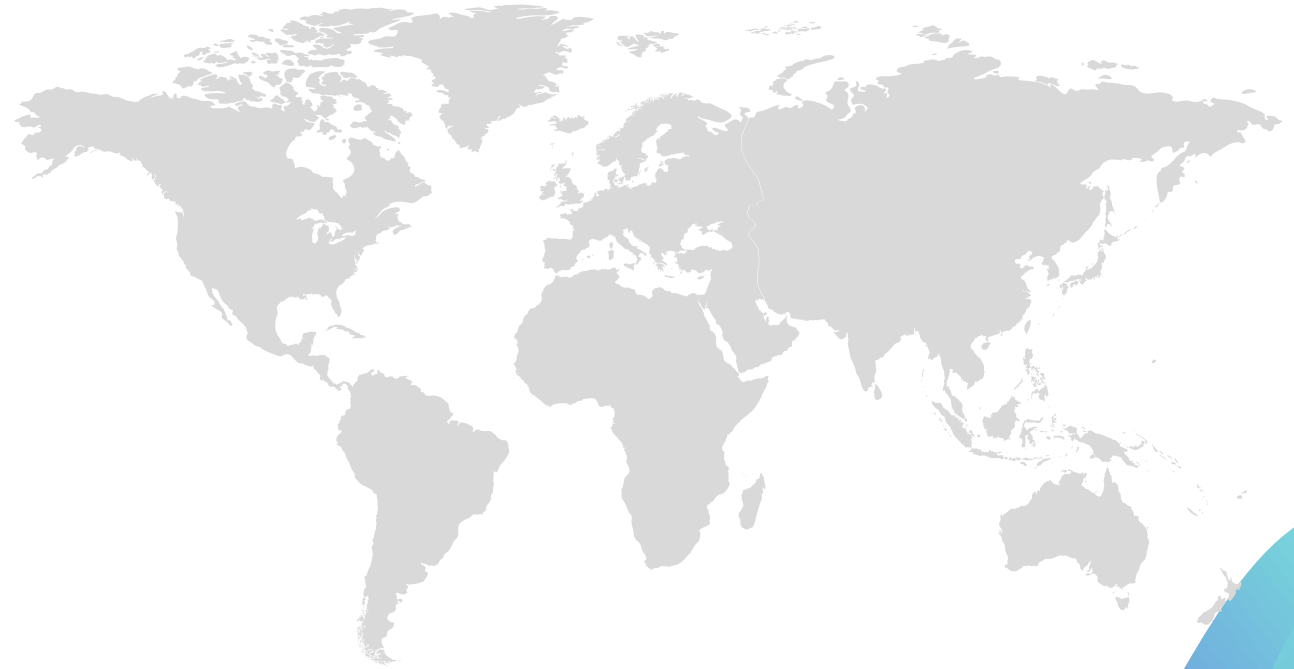

Who Should Attend ?

All lawyers & other legal professionals

Why Should Attend ?

Artificial Intelligence is changing many markets, including the legal market. Find out what is happening in this.
