On-Demand Webinar

Duration : 149 Minutes

Price: \$200

Webinar Description

This webinar will focus on designing a thorough internal audit set of process tools, accurately captured in your internal audit procedure that will provide many years of payback and dividends for your organization.

Who Should Attend ?

ISO Management Representatives

ISO Lead Auditors

Internal Audit Team members

Top management personnel that are not on the Team

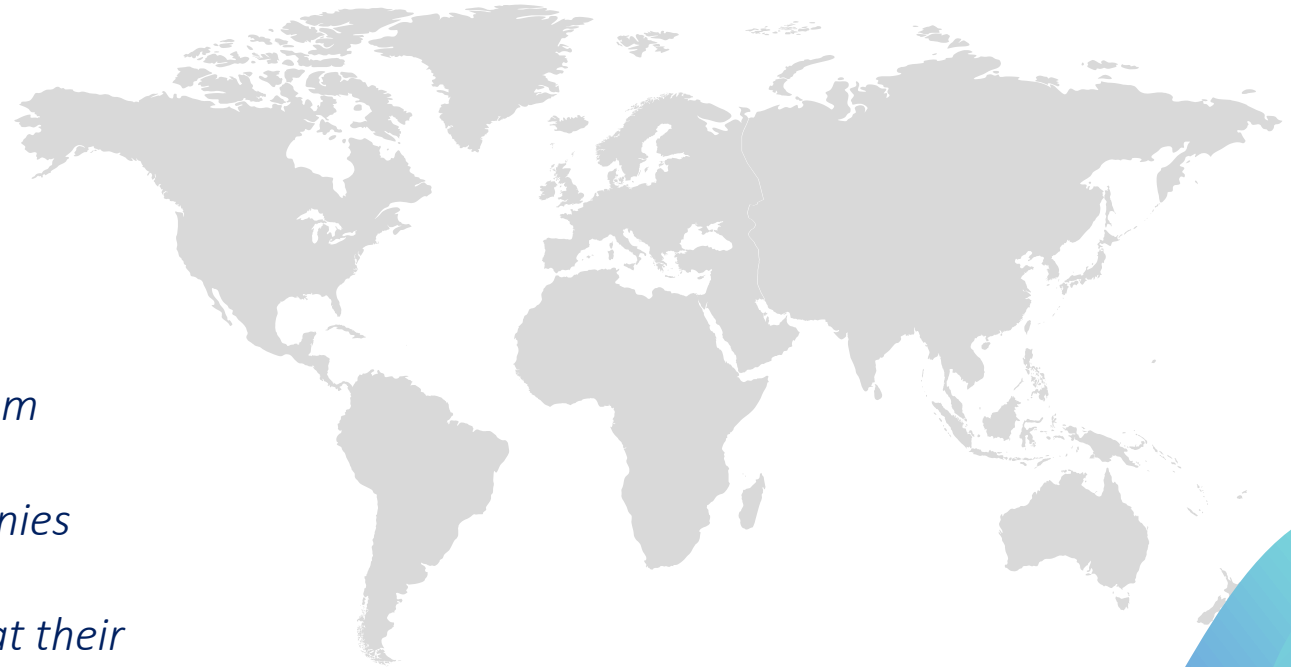

Managers and Supervisors of ISO registered companies

Leaders from all types of organizations who feel that their organizations need an "audit improvement shot in the arm"

Process owners

Process participants who want to learn more about ISO

Anyone from any organization who is contemplating designing and ISO compliant quality management system

Why Should Attend ?

Many organizations fail to realize that a well planned and thorough internal audit process provides top management with measurement tools to determine the effectiveness of each of its organizational processes.
