Roman has qualifications in Frontline Management, Accounting, Training and Assessment and is certified in Six Sigma business improvement methodology.*

On-Demand Webinar

Duration : 90 Minutes

Price: \$200

# Webinar Description

PivotTables are the most powerful data analysis feature in Excel, combining the ability to sort, filter, subtotal, calculate and chart data in minutes.

A Pivot Table display a summary of a selected data set in a condensed format of rows, columns, data fields, and pages. These components can be “pivoted” with your mouse allowing you to expand, isolate, calculate, and group the particular data in real time. This table empowers the user to view and analyze large amounts of information.

PivotTables are a “must have” reporting tool enabling quick business decisions, crucial in business, government, and academic fields.

PivotCharts provide added enhancement through a powerful graphical presentation of PivotTable data.

Understand this power-packed capability of Excel and how you can create PivotTables in minutes “working smarter .. not harder”!

# Who Should Attend ?

*Anyone seeking to significantly boost profits, competitive advantage, productivity, job satisfaction and effective use of their technology.*

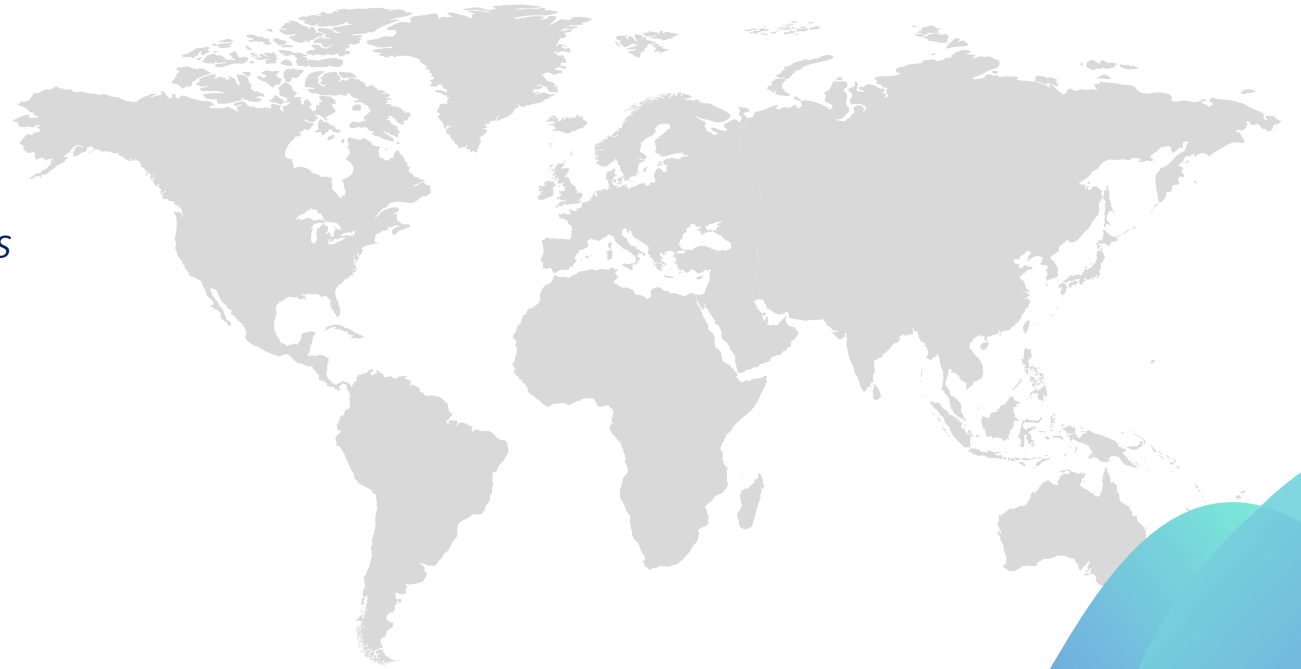

# Why Should Attend ?

*Boost profit, efficiency, and productivity*

*Achieve more in less time with higher quality results*

*Improve job satisfaction, team performance, and professionalism*
