On-Demand Webinar

Duration : 90 Minutes

Price: \$200

Webinar Description

This webinar will help you understand the critical ingredients for conducting an effective root cause analysis. You will learn about FDA expectations, tools and techniques, and tips for conducting and documenting root cause analysis. We will discuss the myths, challenges, and best practices for this critical process. We'll also cover the essentials of doing a failure investigation.

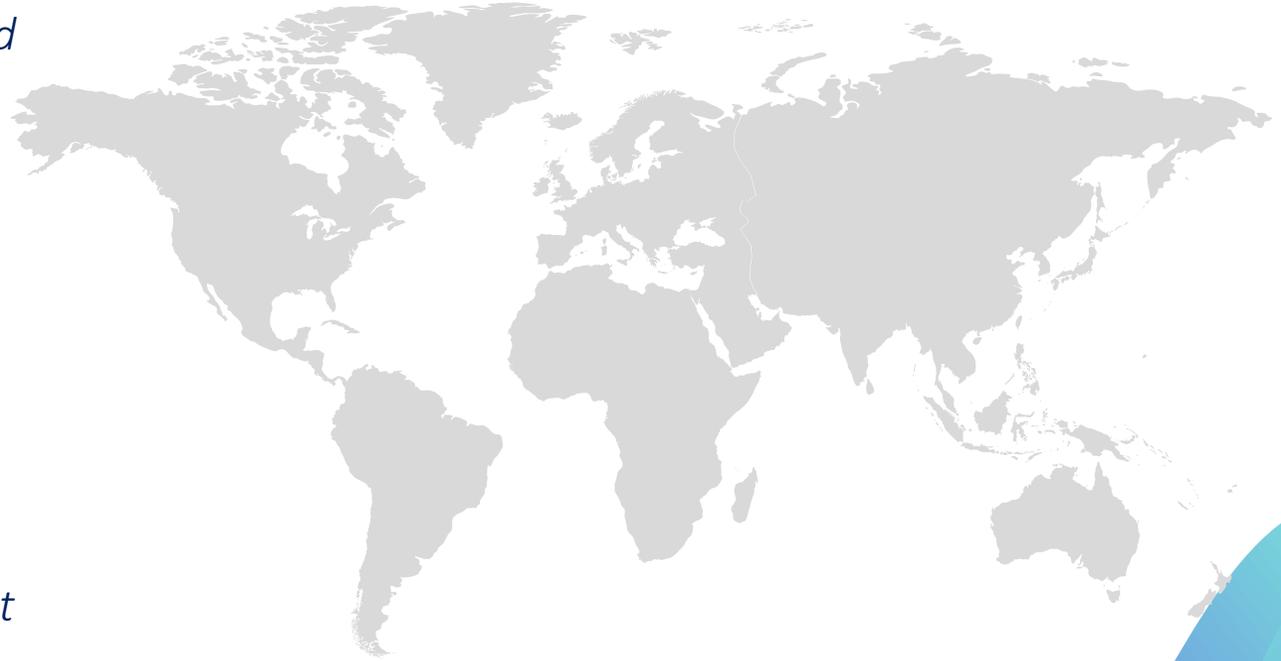

Who Should Attend ?

Quality Engineers
Manufacturing Engineers
Process Engineers
Compliance Specialists
Auditors
CAPA Specialists
CAPA Project Leaders
CAPA Managers
Supplier Quality Engineers

Why Should Attend ?

CAPA is the cornerstone of quality improvement and it depends on an effective root cause analysis. Conducting an effective root cause analysis (RCA) can be a daunting task. And without a good root cause analysis, your CAPA will not result in the desired improvement. You will waste precious time and money and still end up with unsatisfactory results. This webinar will give you insights and lessons learned from a certified Master Black Belt and industry expert with over 30 years' experience. You will learn about the RCA toolbox and how to get a permanent resolution to your significant quality problems.
