

*Webinar on*

# **Robust CAPA Process for Medical Devices**

# Learning Objectives

- Corrections, Corrective Actions and Preventive Actions*
- Courses for CAPA*
- Root-cause Analysis*
- CAPA Management*

# Areas Covered

- Corrections, Corrective Actions and Preventive Actions*
- Courses for CAPA*
- Root-cause Analysis*
- CAPA Management*

The difference between Correction, Corrective Action, and Preventive Action will be discussed.

**PRESENTED BY:**

*Yuval Shapiro is the founder of QWV – Quality with Value, QA/RA Services. An expert for products and companies primarily related to medical devices that meet the real needs of their clientele. Substantial experience gained in various multi-discipline technology industries (Military, Telecom & Medical Devices), and give a high-value contribution to quality and reliability projects related to the medical device and telecom industries.*

On-Demand Webinar

Duration : 60 Minutes

Price: \$200

# Webinar Description

Mr. Yuval Shapiro shall present the requirements for Corrective and Preventive actions as required by medical devices standards (ISO13485, etc.), and the common practice.

The difference between Correction, Corrective Action, and Preventive Action will be discussed.

Mr. Shapiro shall present common sources for CAPA, tools for root-cause-analysis, e.g. – 5Why, Cause, and Effect Diagram, Pareto Charts, etc.

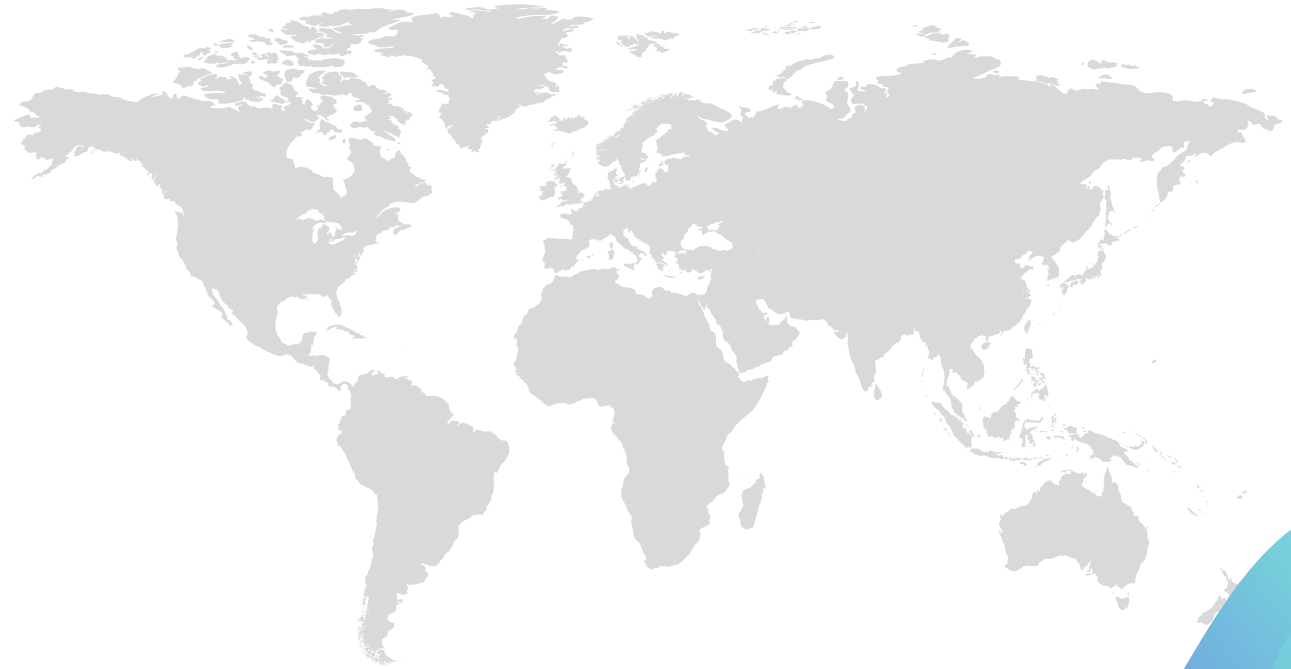

Also, it will be presented as an effective mechanism for CAPA management.

CAPA – Corrective and Preventive Action is the cornerstone of quality management systems in the medical devices industry. Quality Managers are struggling on a day-to-day basis on how to make CAPA a common practice of the organization.

# Who Should Attend ?

*Quality Engineers and Quality Managers*

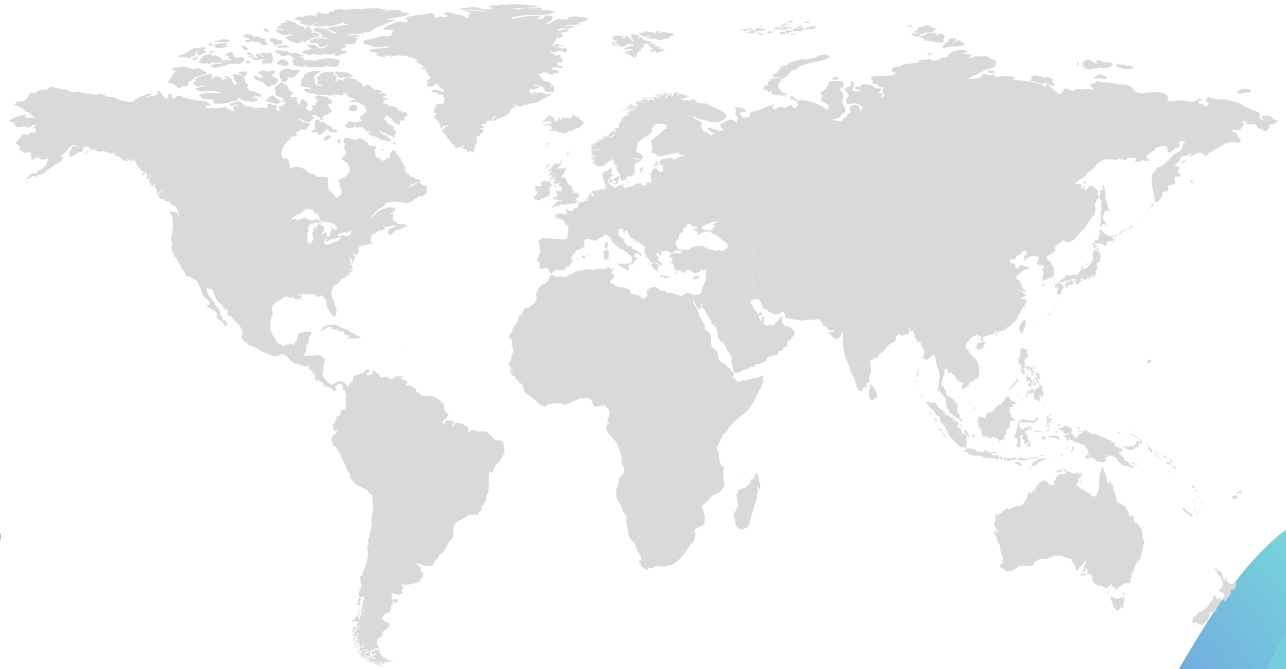

# Why Should You Attend ?

*The purpose of this webinar is to present what are the requirements for a robust CAPA process*

*The webinar shall provide tools and examples of how to analyze and identify a root-cause and provide a mechanism to mitigate them*

*Also, the webinar shall provide insights into how to manage CAPA in daily manner*
