All countries regulate the movement of goods across their borders.

PRESENTED BY:

Martin is a customs and international trade lawyer admitted to practice in New Jersey, New York, and Pennsylvania, and before the U.S. District Court for the District of New Jersey and the U.S. Court of International Trade.

On-Demand Webinar

Duration : 60 Minutes

Price: \$200

Webinar Description

Having a solid understanding of applicable regulations is not only legally required, but it can also offer your company tactical and strategic advantages. Preventing fines, penalties, and potential loss of import privileges will keep your business running smoothly, efficiently, and at the lowest cost of operation.

Knowing, understanding, and applying the subtle areas of trade compliance and global trade management (“GTM”) may provide you with competitive advantages over those trying to out-source or, worse, ignore, these regulations.

All countries regulate the movement of goods across their borders. To meet various domestic and global trade policy objectives, a multitude of trade regulations and agreements are in place. Knowing the law and regulations that affect your operations is business-critical to avoid supply chain disruptions and possible fines, penalties, and even the suspension of your import privileges!

Sales...

Why Should Attend ?

“Ignorance is no excuse”. All US Imports are legally responsible and liable for knowing, understanding, and properly applying all applicable laws and regulations under the US Customs Modernization Act (the “Mod Act”) under the “reasonable care” legal standard.

This session will help you identify those sections and areas of the potentially-daunting Code of Federal Regulations (“CFR”) Title 19 that applies to all US Imports. Further, if there are areas that are not highlighted, you will have the opportunity to ask your specific questions of our expert presenter.
