On-Demand Webinar

Duration : 90 Minutes

Price: \$200

Webinar Description

Current and future labor shortage will continue to drag down your company's growth, performance, and profitability. What do great managers know that average managers do not when it comes to employee training, retention, and motivation? Experience has shown that implementing a solid employee development process, which includes industry best practices, can drive productivity up by almost 40%, at little cost. Employees work for more than just money, you need to find out the biggest motivator. This is how to engage, inspire, educate and empower everyone that will bring out their best every day, and at the same time, grow your company, and your reputation as an employer of choice.

In this webinar, you will learn the two main causes of employee turnover and how to remedy it, and how to adapt the leadership characteristics of successful business leaders and coaches. When you to apply the measurement tools that are available to leadership to help drive performance in a win-win manner, you will create enthusiastic, engaged employees. This is your opportunity to learn the key to retaining employees and accelerating the productivity of your talent. This webinar will show you how to define and set an exciting workplace destination and define leadership attributes that focus on the importance of trust at all levels, the power of excellence, understand how to lead and develop employees, and how to initiate creativity and continuous improvement to that will drive up customer loyalty and sales.
