Webinar Description

The takeaway for each participant is to understand the ABC's of customs compliance and learn how to develop a program that is tailored to its company's size, supply chain, product, and risks. The program will outline the key elements of a solid customs compliance program and provide guidance on how to develop or take corrective actions to ensure compliance and protect the company. This webinar will give the participants the tools to help articulate the reasons why each company must be aware of import requirements and justify why a company must take the steps and use resources to review and if necessary take corrective actions to prevent customs non-compliance.

Why Should You Attend ?

Now as never before, it is important that importers understand and comply with U.S. Customs laws. Companies that do not have strong compliance programs run the risk that Customs will determine the company is not compliant which can result in audits or penalties. This webinar will provide the basic that every company should know and develop for each company, whether it is a small or medium size importer.
