On-Demand Webinar

Duration : 90 Minutes

Price: \$200

# Webinar Description

This webinar can help you understand your responsibilities in terms of Purchasing Controls enabling you to provide safe and effective products to your customers. Learn how to prevent quality and compliance problems by having a strong system for Purchasing Controls! This webinar will help you to understand the regulations and how you can translate them into an efficient and effective process for purchasing/ supplier control. You'll learn about the essential elements of purchasing control and how you can translate them into your procedures. We'll discuss the process steps for purchasing control and how it relates to other parts of your QMS including receiving and acceptance activities.

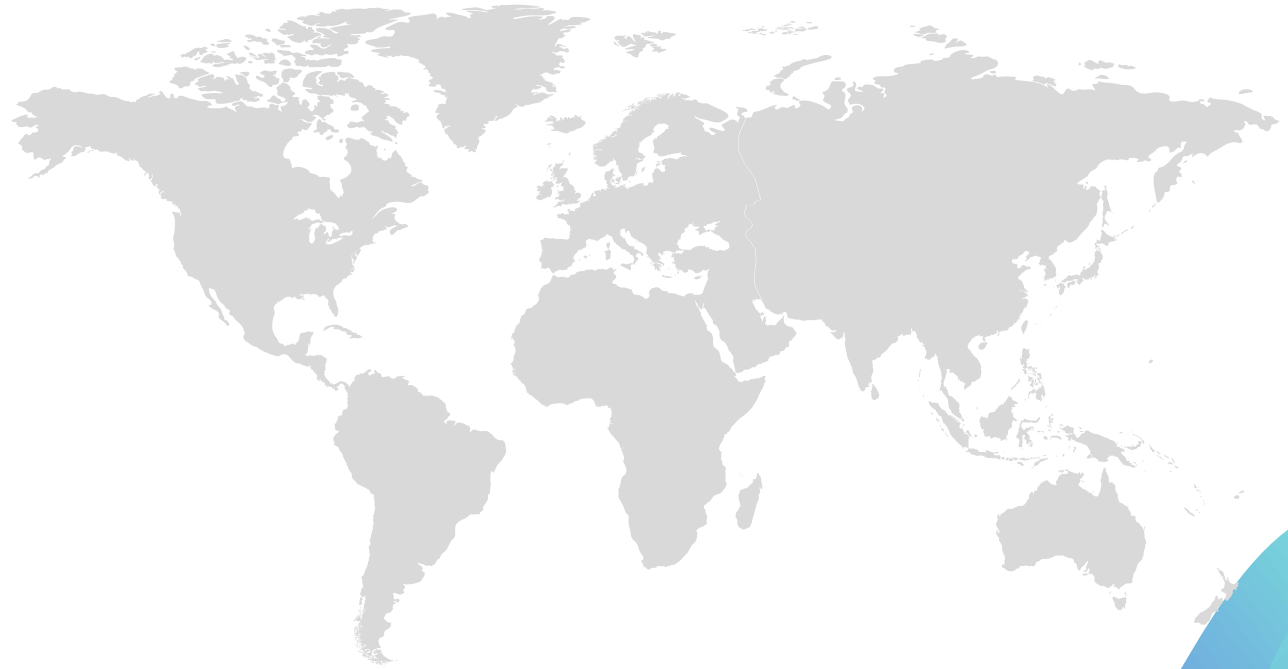

# Who Should Attend ?

*Medical Device Companies*  
*Supplier Engineers*  
*Supplier/Purchasing Managers*  
*Quality Engineers*  
*Supplier Quality Engineers*  
*Compliance Personnel*  
*Supplier Auditors*  
*Compliance Specialists*

# Why Should You Attend ?

*Inadequate supplier/purchasing control can lead to a multitude of problems including rejections or delays at receiving inspection; non-conformances and scrap on your manufacturing lines; and quality problems that can manifest later in the field resulting in MDRs and recalls. Purchasing Controls have received significant scrutiny from the FDA in recent years due to an increase in adverse events and recalls. Purchasing Controls continue to be a leading source of 483 and Warning Letter citations.*
