Date : September 13, 2019

Time : 01 : 00 PM EST

Duration : 60 Minutes

Price: \$149

Webinar Description

Participants will learn the basics of the Export Administration Regulations, the mechanics of export classification and apply the rules to their products. They will understand that there is more to exporting than just shipping a freight container across a border into another country. The webinar will explain what is an export and what procedures must be implemented and followed in order for their company to comply with the Export Administration Regulations. The participants should be able to return to their office and enhance their export compliance program or develop and roll out a new one. The webinar will help the participants feel more confident with exporting and how to communicate the importance of complying with the EAR.

Who Should Attend ?

Logistics, Shipping, Import/Export, Supply Chain Management, Sales, Order Administration, Operations

Why Should Attend ?

This webinar is designed to provide a basic understanding of the fundamentals of US export control rules and Export Administration Regulations (EAR) and how to ensure your company does not violate them.
